- **Certification :** Django **|** Issuing Organization : Great Learning **|** Date : July'23

💡 PROJECTS

- **Mini Blog Website**

  I designed and developed a compact blog website that offers an intuitive platform for administrators to create, publish, and efficiently manage blog posts, including their associated categories.

  Languages: PHP, HTML, CSS and Database MYSQL.
  Website URL : ayush-myblog.000webhostapp.com
  Admin Panel : ayush-myblog.000webhostapp.com/admin

- **Basic Employee Management System**

  I developed an employee management system with Laravel, streamlining staff oversight by recording department, personal details, and enabling efficient department management.

  Languages: Laravel(PHP Framework), HTML, CSS and Database MYSQL.

- **· Basic Banking System**

  I created a user-friendly Basic Banking System Website for effortless money transfers between user accounts and detailed transaction history tracking.

  Languages: PHP, HTML, CSS and Database MYSQL.

- **· Educourse Hub (Learning Management System)**

  I built a responsive WordPress LMS similar to Udemy, offering diverse online courses and allowing user registration as instructors to create and share their courses.

  Tools & Plugins: WordPress, Tutor LMS Plugin, Elementor, Woo Commerce.

- **· Online Mobile Shop (E-Commerce Website)**

  I developed a WordPress e-commerce site for easy online shopping of mobile phones and accessories, offering diverse payment options, including UPI, credit/debit cards, and Cash on Delivery.

  Tools & Plugins: WordPress, Tutor LMS Plugin, Woo Commerce.

🧠 PROJECTS

- ## All Chalisa (Android Application)

  I built the 'All Chalisa' Android app in Java, offering a rich repository of Hindu devotional hymns with text, audio, offline access, and sharing features for Chalisa enthusiasts.

  Language: Java, XML.

- ## Library Management System (Window Application)

  I developed a Windows Library Management System in C# for efficient management of student and book records, streamlining library operations.

  Language: C#.
